

Experience Excellence in Camping & Safari Adventures

Exploration with no limits

Camping & safari adventures are an excellent chance for everyone to unplug, get away from the routine, get in touch with nature, encounter wildlife, watch the stars, wake up with nature rather than an alarm clock.

In 2015, we decided at Panorama Travels to take our safari & camping adventures to the next level. We have selected the best equipment in the global camping and off-road industry that allows more comfort, efficiency, and reliability, which made us able to provide unique and quality services such as a picnic on the top of a dune, hot showers after snorkeling, or exploring remote lagoons or remote islands in buddle boards or even a super-fast setup camps -20 minutes- in the highest peaks of Oman or at the Empty Quarter -the world's largest sand sea-

The high position of the CVT hard shell roof top tents in the top of the vehicles or the top of the off-road trailers provide an unforgettable experience to wake up with the chirping of birds in the most epic breathtaking views of Oman from your bed.

The off-road trailers allowed us to go beyond any standard programs and provide more comfort even in regular safari trips -with no camping - by allowing extra space for the galley, showers, fridges, 270 awnings, gears for a picnic, snorkeling, or hiking.

We invite you to experience our excellence in exploring beyond any standards programs.
